

LABORATORY NOTEBOOK

Name: _____

Date: _____

To the Educator:

This lab notebook is designed for the curious young scientist! Preschool aged kids love using this notebook to draw experiments. To encourage a love of science at this age, you'll want to guide your student through the notebook by helping them record their ideas, draw pictures, and scribe as needed.

Remember...

Lab notebooks are easy to use! This lab notebook follows the scientific method, and encourages STEM skills such as:

- Thinking like a scientist
- Learning scientific vocabulary
- Problem solving
- Collecting and interpreting data
- Communicating results

Why I use a lab notebook:

A lab notebook helps scientists document important information, and keeps their ideas organized.

I like to experiment because:

Table of Contents:

Experiment	Page #

Experiment #: _____ Title: _____

Ask a QUESTION
I wonder...

Form a HYPOTHESIS
I think...

EXPERIMENT!

These are my materials:	This is how I'll do my experiment
-------------------------	-----------------------------------

My OBSERVATIONS:
I saw, I heard, I smelled...

My CONCLUSIONS:
I learned...
